Salford Township Park Board
Meeting Minutes for 1/28/2020

The Park Board meeting started at 7:30PM. Present were members Warren Taylor, Charles Boyd and Frank Jarrett. Also, in attendance was Brian Henderson.

No minutes were read since no meeting have been held since October 2019.

The discussion was centered around what type of improvements for the Township's parks and open spaces should be considered. Those mentioned were another fishing pier at White's Mill, draining the wet area in the Tylersport Community Park and improving and extending trails around the pond at White's Mill. No decision was made.

It was agreed that the Township Supervisors need to be contacted and asked if they had something, they would like the Park Board to work on. It was felt that this direction was needed to better understand if funding of the project was possible.

The members next considered Brian Henderson's expressed interest in joining the Park Board as a member. The members present agreed that his name should be submitted to he Supervisors with a recommendation Brian be appointed to the Park Board.

Being no other business the meeting adjourned at 7:47PM
